

BS – DOUBLE MOLDED RUBBER

SCHIOPPA

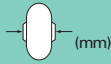

R 123 BSE

Cast iron wheel, coated with a double layer rubber, has high shock and vibration absorption, and a longer life due to the high volume of rubber. It is generally used in equipment, trucks, dollies or carts that carry heavy and traction loads.

Hardness: **80 (± 5) Shore A.**

Color: **Black.**

Temperature range: **from -40° up to 70° C.**
