

RIT 2504 PPN

RIT 2504 R

This wheel may be supplied in two models: with carbon steel stamped flange and zinc plated finishing, or with high resistance nylon flange. Its stamped flanges are divided into halves and make any necessary maintenance easy. Its dimensional complies with international standards, and this has been the greatest innovation occurred in domestic market during last years.

Color:

**Black tire / Zinc plated flange.
Black tire / Gray injected flange.**
